Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	Literature, New Technology, Sound, Contemporary arts, Cultural Heritage, Art Production, Audio-visual, Theater
Description or summary of the proposed project	Migration soundscript 2021-2024 , a cultural arts program, aims to develop mutual relations and cultural cooperation, where the primary purpose is to develop Slavic languages used by all partner countries, two EU member states (Croatia and Slovenia) and four non-members (Serbia, North Macedonia, Bosnia and Herzegovina, Montenegro). "Migration soundscript 2021-2024" is based on a mobile application compatible with BEACON BLE terminals (Bluetooth Low Energy) / <i>indoor</i> and locations where signal is missing/, and geolocalisation and mapping/ <i>outdoor</i> . The mobile app activates in the public areas of the capitals of partner countries and used with headphones. The contents of the mobile app are unpublished short stories by authors from all partner countries, as well as project leader

	<p>country, that have been specifically written by invitation, excerpts from the classic literature of the same countries, and a selection of the best short stories of high school students of all partner countries after online short story competition. The content should be inspired by urban stories through which it permeates its own view of the Slavic languages, its preservation, new forms of expression and new words, packed with the theme of work and migration in any sense; humans, animals, or energy or the use of new technologies., the length of a short story is average song length. All content will be recorded with voice acting and sound design and adapted to the mobile application. At the same time, the entire content needs to be translated into English and recorded in the studio. The promotion of each branch of the mobile application and its contents within 48 months would travel from one partner country to other partner country. These promotion visits would include workshops for examples : on mother tongue, on Slavic languages and linguistic diversity, networking of literary expression and digitalization, their connection with young people and the future of the language, as well as developing the audience, but primarily establishing good-neighborly relations that comes from language, expression and communication in a completely new, innovative and fun way that is adaptable to a wide audience by being packed with new technology in everyone's pocket. The workshops may also include exhibitions, performances, meetings, concerts or performances that are closely related to the basic theme. We need an organization that represents your country and would be an integral part of the entire workflow and develop 5 workflow packages (WP) of total 25WP for now. One of the five WPs (the principal) is the creation of content of your own country, that we, like a project leader country, can place it in the mobile application and help us with mapping of your capital city for an app. Migration Soundscript 2021-2024 (Info: the same content will be placed in all partner capital cities with which we will also do the mapping in their capital cities with the promotion of your country), while the other four WPs are promotions of other branches of 'Migration Soundscript 2021-2024' from different project partners countries, which will also be activated in the public area of your capital city accompanied by the promotion of approximately two weeks where different workshops will be held. We, as project promoters, have absolute experience in developing this type of project and what we need now are partners from mentioned countries to make a content for mobile application, organize workshops and promotions (2021-2024).</p> <p>CONTACT US FOR MORE INFORMATIONS</p>
